

Math 231 2020 Midterm Prep

- **Please read this and send me an email with Subject line “Math 231 Midterm Prep” by 9am on Saturday saying that you understand it. If you have any questions or concerns about the test please raise them by this time.**
- I will post the real test online at 10:30am on Monday, May 11. You will have until 10:30am Tuesday to get it back to me. You are welcome to bring it to my office #305 in the Math building (building #209), but you may also e-mail it as you have been doing with the homework. Please write clearly and try to make clear scans/photos of your work– I tend to give more marks if the presentation is neat, organised, and easy to read.
- The test should take about an hour.
- Read the instructions on the test carefully.
- Please do the questions on your own. Do not discuss them with other students.
- Several questions are from the notes. To prepare for the test, review the notes and do the suggested problems listed in the notes. (Practice problems and chapter problems.) Also look at the Chapter Review sections in the textbook. You may also find copies of old tests on my website.
